

To Whom It May Concern:

I have gotten to know Michaella Bigot over the past school year. She is a student in my English IV class during her senior year. She is a great student and enjoyable to have in the classroom. Michaella is responsible, and always takes care to do her best work. She has a positive attitude that adds to the classroom environment.

As a student, Michaella works hard and wants to go beyond what is required. She participates in class discussions and shows a willingness to learn. Michaella works well with group situations and is able to inspire others. She works well under pressure, and I have never had occasion to doubt her. Michaella is responsible, polite, and a definite asset to have in the classroom.
